DROVER^{THIRTEEN}

Introducing the new camper from Bushwakka Adventure Gear – The Bushwakka Drover 15.

The Bushwakka Drover 13 is an exciting addition to our Hybrid Camper Family. Designed as a compact 2-Berth for adventurous couples seeking a more compact option with the same features as the Drover 15! Whether you yearn for a touch of culture, desire to explore the red dirt of the outback, or wander our beautiful beaches and mountains, the Drover will transport you there and back in comfort and style.

Internally, you will discover an intuitively designed layout, featuring a large queen-size north/south-facing bed and large windows to invite in the summer breeze. The camper offers ample internal storage cupboards including overhead cupboards for short trips, and enough space for extensive travels around our beautiful country.

The Café Dinette seating with a swing table allows for comfortable seating inside, whether you are enjoying a cuppa, lunch, or engaging in card games.

The separate shower toilet is the highlight of this camper! The spacious shower provides hot & cold water with a roof-mounted shower rose. A separate electric flush toilet, along with additional storage, further enhances the creature comforts of the Drover 13.

An electrically operated pop-top roof simplifies setup, with plenty of charging points, 240v, and internal fans. Standard features include a complete Battery Management System, lithium batteries, and solar power to keep you off the grid for longer. Creature comforts such as a roof mounted aircon and diesel heater ensure that exploring our beautiful land remains comfortable regardless of the season.

The Drover also offers an easily set up external galley style kitchen, ideal for quick stopovers. Simply open the door to reveal an open space, a 3-burner Thetford gas cooktop or induction cooktop, a stainless-steel sink, electrical points, and 12v LED lighting. The outdoor galley is completed with a large 95L dual-zone fridge freezer that slides out beside the kitchen, all sheltered under Bushwakka's unique dual folding freestanding MEG awning that covers both the fridge and freezer.

The integrated front storage compartment allows for bulkier items, eliminating the need to store them inside the van or car!

All Bushwakka Campers feature suspension from Carbon Offroad and are supported by a 6-year warranty, offering peace of mind during your camping adventures.
