DROVER FIFTEEN

Introducing the new camper from Bushwakka Adventure Gear – The Bushwakka Drover 15.

We are delighted to introduce the Drover 15 to our hybrid camper family. Designed as a 2-berth for adventurous couples! Whether you desire a touch of culture, wish to explore the red dirt of the outback, discover our amazing beaches, or conquer the mountains, the Drover will transport you there and back in comfort and style.

Internally, you will find an intuitively designed layout, featuring a large queen-size north/-south-facing bed. Large windows allows ample light and the camper provides an inviting atmosphere to enjoy that summer breeze. There is plenty of internal storage space for short trips and even for extensive travels around our beautiful country.

The café dinette seating arrangement with a tri-fold table offers comfortable seating inside, whether you're enjoying a cuppa, having lunch, or engaging in card games.

The separate shower toilet is the highlight of this camper! A spacious shower offers hot and cold water with a roof-mounted shower rose. Additionally, there is a separate electric flush toilet and plenty of storage to enhance the creature comforts of the Drover. An optional washing machine is also available to further enhance the comforts whilst camping.

An electrically operated pop-top roof makes setup a breeze. The camper features numerous charging points throughout. Included as standard is a complete battery management system, lithium batteries, and solar power to keep you off the grid for longer. The camper also features a roof mounted air conditioner and diesel heater for comfortable exploration in any season.

The Drover comes with an easy setup external kitchen, perfect for quick stopovers. Simply open the door to reveal an open galley style kitchen equipped with a 3-burner Thetford gas cooktop or induction cooktop, a stainless steel sink, electrical points, and 12v LED lighting. Storage options include overhead cupboards as well as 2 pantry drawers. Completing the outdoor galley kitchen is a large 95L dual-zone fridge freezer that slides out beside the kitchen. All of this is covered with Bushwakka's unique and largest freestanding "Meg" awning, providing ample cover and shade.

The front nose storage compartment design allows you to load bulkier items, eliminating the need to store them inside the van or car!

All Bushwakka campers feature suspension from Carbon Offroad and are backed by a 6-year warranty for a peace of mind camping experience.
